OVER 700 LEADERS ARRESTED

COUNT WITTE'S POWER WHICH WAS
WANING NOW GROWS

Brigade Will be Sent to Quell the
Revolt in the Baltic
Provinces.

(Bulletin.)

London, Eng., Dec. 26.—The Exchange Telegraph company has a dispatch from St. Petersburg today which says that the bourse and banks are closed there. Desperate fighting has occurred between the troops and rebels at Moscow. The revolutionists apparently have been successful. In area the revolution is growing broader.

DESPERATE FIGHTING.

(Bulletin.)

St. Petersburg, Dec. 26.—The troops at Moscow secured partial control of some parts of the city, but the fighting continues with the same desperation. The revolutionists have sent an urgent appeal to other cities for assistance and 30,000 strikers from Zuevo with artillerymen from Lithuania are now marching toward Moscow to assist the insurgents.

BIG STRIKE BROKEN.

St. Petersburg, Dec. 26.—The strike here has practically ended in the defeat of the strikers. Thousands of men who left their positions are returning to work owing to the fact that the strike committee is unable to support them because of lack of money. There is opposition of the public generally to the strike fund, and this is one of the many causes for its apparent failure. Over 700 strike leaders were under arrest. This includes practically all the intelligent men among the strike managers. Count Witte's power, which a fortnight ago was in great danger of being entirely swept away, has accordingly grown in strength. His policy of forcing an end to the postal and telegraph strike and lack of success of the present strike have combined to make him more powerful than ever before.

His semi-reactionary conduct has also lifted him into higher favor with the court and all the talk of his supersession is dying out. The special council over which the Czar presided decided to send a brigade of troops including guards, Uhlans, cuirassiers, hussars and dragoons under command of Gen. Orloff to crush the revolt in the Baltic provinces.

FAMOUS JURIST.

Judge Tuley of Chicago Dies in a
Sanitarium.

Chicago, Dec. 26.—Judge Murray Floyd Tuley, the Nestor of the Chicago bench, whose death occurred Christmas at a Milwaukee sanitarium, was one of the most widely known jurists in the west. He was elected to the circuit bench of Cook county in 1879 and had served continuously since that time. Judge Tuley had the record of fewer reversals of his decisions by the supreme court than any other circuit judge. He was born in Louisville, Ky., in 1827. He was a veteran of the Mexican war, serving as first lieutenant of the Fifth Illinois infantry, and in 1849 served as attorney general of New Mexico. The body was brought to Chicago for interment. Judge Tuley died of exhaustion, caused by overwork.

Dewey's Message.

Washington, Dec. 26.—Admiral Dewey's Christmas greeting to the officers and men of the navy, bespeaking a united stand for the good of the country and the service, was communicated to the officers and men aboard the vessels throughout the world wherever they could be reached by telegraph. To the men of the navy along the Atlantic coast there was also sent a Christmas greeting by means of wireless telegraph, which incidentally served as an elaborate and practical test of this auxiliary of the naval service.

Chinese Demands.

Shanghai, Dec. 26.—The Chinese foreign office has instructed the Chinese minister at London to negotiate with the British government regarding the mixed court dispute, to demand the dismissal of the British assessor and to insist upon the punishment of the police concerned in the recent outbreak.

ODELL CROWD FULL OF FIGHT

Confident Merritt Will Be Elected
Speaker of New York House.

CAMPAIGN PLANS OUTLINED

Threats Made That State Administration Will Be Harassed by Assemblymen If Higgins' Choice For Speaker Wins Out—Developments in the Political Contest.

New York, Dec. 26.—B. B. Odell, Jr., and friends, realizing that prospects of electing their candidate for speaker of the next assembly are growing less each day, are preparing for a contest with the Republican organization in this state, in the hope that Governor Higgins will not force his fight against them to a finish. This work is being done, it is said, with deliberation to make all possible trouble and to give Governor Higgins and President Roosevelt warning that if they carry out their program to elect James W. Wadsworth, Jr., speaker, Odell men in the legislature will do all in their power to make its coming session a farce. Resolutions demanding investigations into various departments under the governor will be pressed at every opportunity, as outlined in a statement said to have been made by Assemblyman Merritt, the Odell candidate for speaker.

Mr. Wadsworth's friends, confident that they have votes to elect him, spent Christmas in their homes. Mr. Merritt and his friends, on the other hand, were at work in their headquarters in the Murray Hill hotel. Mr. Merritt will not leave the city before Thursday morning, when he will go to Albany to open headquarters. Senator Malby, who is managing Mr. Merritt's canvass for speaker, said that he was confident that Mr. Merritt would be elected. "I do not believe," he added, "that the people of New York state have reached a point where they are willing to have their members of the assembly surrender their rights to select their own speaker and to have them delegate selection of such man to the governor to be appointed like a port warden or a commissioner."

TO SETTLE DISPUTES.

Anthracite Miners Suggest a Permanent Conciliation Board.

Philadelphia, Dec. 26.—President John Mitchell of the United Mine Workers has communicated with the presidents of the anthracite coal producing companies in regard to the demand that the miners will make for the continuance of work in the hard coal fields. It is understood the letter is in regard to holding a conference between the committee representing the United Mine Workers and the operators. As to what the operators will do it has not been definitely decided upon. Besides asking for an eight-hour day, there are also to be presented other demands. The most important and one that, if adopted, will mean the complete recognition of the union, is the request that an entire new conciliation board be formed, one that will always be in session and will go from place to place to settle disputes. This request will meet with considerable opposition from the operators.

Schooner Wrecked.

Norfolk, Va., Dec. 26.—With all her headgear torn away and her topsails set, an unknown three-masted schooner has sunk in 12 fathoms of water, six and one-half miles northeast of Winter Quarter lightship, and directly in the path of coastwise navigation. This information is contained in a report made here by Captain Charles James of the Merchants and Miners' Steamship Juniata. According to Captain James the schooner is evidently the victim of a collision. Only her topmasts above the crossrees are out of the water, and the appearance of her topsails indicates that the disaster occurred not long before the Juniata passed. No sign of wreckage was seen, however, nor was there anything above water to reveal the identity of the schooner. The fate of her crew is not known.

Killed by Grizzly Bears.

Omaha, Neb., Dec. 26.—The information reached this city that Simon B. Clark of Omaha, one of the best known pioneers of Nebraska, was recently killed in a battle with grizzly bears in the Big Horn country. The news was contained in a letter from a ranchman named Adams, who said Clark's horse came to his ranch Dec. 21. Recognizing the animal, Adams followed his trail back five miles into the mountains, where he found the badly mangled body of Clark at the mouth of a cave, and beside it two dead grizzlies. Clark is known to have been hunting in the Big Horn country for several weeks.

Sisters Afflicted Alike.

Bellefontaine, O., Dec. 26.—On succeeding days, Misses Hattie and Sarah Lowe fell on the same stairway at their home and both sustained fractured ribs.

FIVE THOUSAND DIE AT MOSCOW

Fighting Continues Between the Revolutionists and the Troops.

FIFTEEN THOUSAND INJURED

Army of Thirty Thousand Ready to March to the Assistance of Moscow Insurgents—Machine Guns Sweep the Barricaded Streets—Situation Throughout Russia.

St. Petersburg, Dec. 26.—The latest dispatch from the city of Moscow says:

"The bloody fighting continues between the troops and the revolutionists, especially in the outskirts. The area of fighting in the city proper has been extended. The guns have been bombarding one barricade after another, the cannonade being followed by charges by the dragoons, who set fire to the debris."

The casualties at Moscow are estimated at 5,000 killed and 14,000 wounded, with the fighting still proceeding. The inhabitants of Moscow have been forbidden to leave their dwellings after 7 o'clock in the evening. It is impossible to move about the city in consequence of the frequency of stray bullets. Many innocent persons have been accidentally killed. A scarcity of provisions is threatened.

Moscow reports state the fighting Sunday assumed the nature of a butchery by the machine guns of the artillery, grape and canister being employed mercilessly against the ill-armed insurgents. Atrocious tales are told of the Cossacks, who, plied with vodka until drunk, fired down the streets, sometimes charging with lances. The insurgents displayed great stubbornness in holding barricades, even advancing in a mass to the slaughter, and bombs were thrown from the windows. The artillery was summoned and battered the houses to pieces. The plan of the insurgents, it is said, is to hold the outskirts and gradually enclose the troops in the center of the city. Officials announce that an army of 30,000 is concentrated at Orechovskoye, northeast of Moscow, and will soon be ready to march to the city's assistance. The latest reports from the city were exhausted. The streets are in absolute darkness, save for searchlights in the towers of bivouacs behind barricades.

The emperor is engaged daily in reviewing at Tsarskoe-Selo the remnants of the St. Petersburg district. The spirit of the troops is decidedly loyal.

Railway employees in Baltic provinces went out on strike Saturday night. The newspapers protest against the false reports printed abroad to the effect that Riga was bombarded and was burning, and that the revolutionists blew up a train carrying 200 Cossacks. The town is perfectly quiet, the inhabitants go about unmolested, street traffic is carried on in good order and there are opera performances daily, though attended by small audiences. Soldiers and police are patrolling the streets day and night. Three cruisers are anchored in the harbor at the disposal of the new governor general, Loholub. Foreigners are in perfect safety at present, but they are of the opinion that it would be a wise precaution if each of the principal powers had warships cruising in the Baltic in readiness for any emergency. The revolutionaries continue a program of agitation, hold daily meetings, and they posted an order to partisans to disarm the soldiers.

Revolutionists at Riga have declared paper money valueless, and gold is scarce. The committee meets daily at the university, where 2,178 students are registered. All lectures, however, have been suspended. Tukum and Talsen have been in mourning since the fighting began. There are daily funeral processions and the towns are almost deserted.

Polish Strikers Yield.

Warsaw, Dec. 26.—The strike of the post and telegraph employees here is at an end. The strikers have accepted the conditions of the government. The military governor has issued an order prohibiting the street sales of newspapers, the singing of revolutionary songs, the holding of meetings and the organization of processions. Persons who violate the order are subject to imprisonment for three months each and to a fine of \$1,500. The railroad men resolved to resume work unless their comrades in St. Petersburg should join the strike.

Xmas in New York.

New York, Dec. 26.—Xmas day in New York was marked by the customary suspension of business and the usual family reunions and generous outpouring of public and private charity. Fully 20,000 poor persons partook of the bountiful Christmas fare provided in all the city hospitals and asylums, in missions and other benevolent institutions supported by private charities, and at the annual distribution of dinners by the Salvation Army and the Volunteers of America.

FALLS DOWN ELEVATOR SHAFT

AND AS RESULT RIGHT FOOT MAY BE
AMPUTATED

Injured Woman Displayed Wonderful
Coolness After the Distressing
Accident.

Miss Louise Morewin, an actress playing the role of the mother-in-law in "The Heir to the Hoorah", which appears at the Auditorium tonight, stepped into an elevator shaft at Hotel Warden at 1 o'clock Tuesday afternoon, falling from the first floor to the basement, a distance of about 12 feet, sustaining injuries which will in all probability result in the amputation of the right foot, and consequently end her stage career.

Miss Morewin attempted to enter the elevator, and, finding the door unlocked, thought that the car was at the first landing, and stepped into the shaft. She sustained a dislocated ankle, and the right foot was so badly crushed that amputation is highly probable. Numerous other bruises were sustained by Miss Morewin in the fall. She exhibited wonderful coolness, even joking after the accident had occurred, and also when arriving at the West Main Street Sanitarium, to which place Bowers & Criss Bros. ambulance conveyed the injured woman.

Miss Morewin's home is at 1440 Broadway, New York. She plays a rather prominent part in "The Heir to the Hoorah", but a capable understudy will appear in her stead this evening.

The right foot will not be amputated for several days, if at all. Every effort will first be made to save the member.

COLLISION

Between Passenger and Freight Train
With Fatal Results.

Meridian Miss., Dec. 26.—In a rear end collision on the Alabama & Vicksburg railroad, at Chunkey, two men were killed, three others seriously injured and a carload of passengers badly shaken up. The dead: Vance Lader, fireman; Peter Kenostay. Injured: Engineer Tucker, ribs broken and badly cut otherwise; fireman of freight train, badly bruised and cut, name not obtained; Engineer Dave Coker, arms and breast bruised, with other cuts.

The accident happened at Chunkey, 15 miles west of this city. The passenger train had stopped to unload baggage, when a freight train running close by crashed into the rear coach. Engineer Tucker of the freight and his fireman jumped before the crash, both being dangerously injured. Engineer Dave Coker of the passenger train, while in the cab of his engine attempting to coast steam, was buried beneath an avalanche of coal. Beyond being badly shaken up the rest of the passengers were not severely injured. Peter Kenostay, who gave his residence as Bay City, Mich., was caught in the crash and terribly mangled. He was tramping.

Trade Agreement Signed.

New York, Dec. 26.—No workers were happier than the 100,000 skilled men in the building trades when it was announced that every union, with the exception of the housecarpenters and bricklayers, had signed a trade agreement of from one to three years, to go into effect Jan. 1. By this action the unions have officially repudiated the strike of the structural iron workers. In many of the trades the prevailing wage will continue for the coming year. The wages of the housecarpenters, however, will be increased 30 cents a day and the cabinet makers will receive an increase of 22 cents a day, beginning next July. The trade agreements now date from Jan. 1 instead of May, as heretofore. This step was taken because the employers do not want strikes on their hands on May 1, when the busy season begins.

Crossing Tragedy.

Philadelphia, Dec. 26.—Returning home after gladdening the hearts of relatives and friends with Christmas gifts, Charles H. Hansen, a well-to-do farmer, and his eight-year-old daughter Edna were fatally killed by a train struck by a passing express train at Camp Hill, 17 miles north of this city.

THOMAS M. BELL,
Congressman from Georgia.

Thomas M. Bell was born March 17, 1861, near Cleveland, White county, Georgia, under the shadow of the Blue Ridge Mountains. His father was a farmer, and he worked on the farm, except during three months of each year, when he began studying law. He had read law but a few months when he abandoned all ideas in that direction on account of the financial reverses of his father. A year later he was attending a business college at Atlanta. For some years after leaving school he traveled for various firms, and won a great number of friends on account of his genial manners. Mr. Bell was clerk of the Superior court of Hall county from 1898 to 1902. He was elected to Congress by a majority of 7,016.

LAW AGAINST CARRYING GUNS BEING ENFORCED IN NEWARK

Four Offenders Were Fined in Police Court Tuesday Morning—Fred Felkner Shot at His Father But Bullet Went Wild—Several Christmas Fights Were Aired in Police Court by Mayor Crilly.

Newark's city officials are waging a strenuous warfare against those residents within the limits of the municipality who are somewhat viciously inclined and who persist in carrying concealed weapons and who are reckless in the handling of fire arms. This warfare has been commenced none too soon. The result can not but be for the best. It is bound to result in a smaller number of shooting scrapes, and that above all things is most desired.

In police court Tuesday morning, four offenders of this type faced Mayor Crilly and none of them was given any mercy. The four were Fred Felkner, aged 18, John Frank, Bos Ensol and Jo Bosso. Felkner was fined \$25 and costs and was committed to the stone pile. The three last named were fined \$10 and costs, the amounts being paid in each case.

In Felkner's case there is a story. It was the result of a family fight Saturday night in Front street. Officer Carroll was called in as a mediator and it resulted disastrously for the father and son. The officer received a call to the Front street home about 5 o'clock. George Felkner, the father

ROMANCE WHICH ENDED IN DEATH
BEGAN IN ITALY

Son was Sent Across Ocean to Prevent
Daughter's Marriage in This
Country.

New York, Dec. 26.—To prevent his sister, Marie Torgennini, from marrying a man whom her parents opposed, Caesar Torgennini shot the girl dead while she slept in her room this morning. Caesar then leaped from a third story window intending to end his life. He is in a hospital, dying with a fractured skull and internal injuries. The romance that ended in the girl's death began in Genoa, Italy. The girl was the daughter of well-to-do parents. She fell in love with a young man in Genoa, but her parents opposed him as he was said to be worthless. One year ago the girl was sent to this country to break the attachment. Four months ago the parents learned that the young man had followed the girl. They sent their son, Caesar, to stop the proposed marriage. Notwithstanding his pleadings, the girl determined to marry the young man. Caesar decided to kill his sister and commit suicide.

CRATTANOOGA

The Scene of Much Disorder and
Tragedy Christmas Day
and Night.

Chattanooga, Tenn., Dec. 26.—All was not joy in Chattanooga Christmas afternoon and night. Little Miss McWhitten of Georgia, was assaulted by an unknown man in her bedroom, being struck on the head with a hatchet in the hands of a negro who escaped.

Policeman Coffey was shot in the head by burglars, his helmet saving his life.

Express Messenger W. J. Mabrey was stabbed in the neck by John Harry, a negro porter.

Charles Dyer, aged 3 years, was instantly killed by Tom Keith Jr., who fired a pistol, believing it was unloaded.

FACTORY GUTTED.

Half-Million Dollar Blaze in Greater
New York.

New York, Dec. 26.—Five alarms, summoning 32 fire companies and reserves from nine police precincts, were sent out for a blaze which completely gutted the six-story factory building numbers 102, 104 and 106 Wooster street, entailing damage estimated at \$500,000. Five firemen sustained injuries, but were able to continue at work. No one was in the building when the fire started, and its origin is unknown.

After the fire was out, Fire Chief Croker stated the loss might run up to \$500,000. There were about a dozen girls at work in an adjoining building when the fire started. All of them reached the street without difficulty.

Why Baxter Was Removed.

Washington, Dec. 26.—Irving Baxter, United States district attorney for Nebraska, has been removed summarily from office by President Roosevelt. The announcement of Mr. Baxter's removal was made at the White House. District Attorney Baxter prosecuted the case against Richards and Comstock, cattle raisers, who were charged with fencing illegally the public lands in Nebraska. The men were convicted and sentenced to six months in the custody of the United States marshal. In carrying out the sentence the United States marshal deplored the attorneys of Richards and Comstock to take charge of the defendants for the six hours of their sentence. For exercising this leniency, the marshal was removed from office.

General Miles Retires.

Washington, Dec. 26.—Secretary Taft has granted the application of Lieutenant General Nelson A. Miles, United States army, retired, for removal from further duty with the army. General Miles has served in the necessary orders of the army. He is 71 years of age. Secretary Taft has granted the application of Lieutenant General Nelson A. The Advocate received the following letter Tuesday from Jacksonville, Ohio:
"I enclose check for \$4.00 for relief of Mrs. Homer Loar, widow of the late Homer Loar, who was shot near the stove foundry in West Newark. This \$4.00 was donated at a box social held at the town hall at Jacksonville on December 25th.
"Yours truly,
L. E. CROW."

ELEVATOR BOY REMEMBERED
At the close of business at the Powers-Miller store Saturday night, all connected with the store collected in one of the large rooms, when Mr. Giddens Lippincott, on behalf of those assembled, presented Lawrence Prior, the accommodating elevator boy, with a handsome silver ring.
A neat little note in verse told of the presentation. It was in five verses the first and last being as follows:
Up you go
And down you come,
Now, I'll tell you
Whom this is from.
So take this little gift
Which comes from the clerks,
And after this as you give us a lift.
Be careful to cut out the joints.

Crime and the Wehrle Strike.

Not in recent years has the Advocate published an utterance that has called forth such widespread, favorable comment as that of last Friday condemning crime in connection with the Wehrle strike.

As soon as the papers reached the street numerous congratulatory messages began to pour into the Advocate office by telephone, and the editors were congratulated in person. The first mail brought further evidence of the fact that the Advocate's suggestion for an increased police force had struck a popular chord, and ever since the people of Newark, in respect of position or condition, have expressed their hearty, unqualified approval of the position taken by this paper.

Laboring men, staunch union men, who know what true unionism means, united with the substantial business men and leading property owners of the city, in approving the suggestion to establish a heavy force of men in the vicinity of the plant and drive all assassins from the city. The police strike inaugurated last June by 125 men out of a force of 2500, has up to date cost three lives, two assaults that almost resulted in murder, and between 50 and 60 minor assaults. It is time to call a halt. It is time to stop this disorder before another drop of blood is shed and there is but one way to do it.

As before pointed out in this paper, no strike was ever won by violence and 99 per cent of the union men of Newark will applaud the city government if a sufficient force of men is placed in the West End to protect both men and property.

Many of the original strikers have left the city, and they have been supplanted by men from other places who have little or no respect for the law. These men are being permitted to terrorize the community and are giving to Newark a reputation abroad that is hurting the town.

The Advocate is not opposed to unionism by any means. It is a union newspaper and indorses the principles of unionism, but it insists that crime has no place in unionism, and when it appears the quicker it is eradicated the better.

If the union men of Newark will rise in their might and insist upon the preservation of law and order at the Wehrle plant, they will regain what has been lost to unionism in this city. The time to act is now.

Increase the police force, regardless of expense; search all suspects; arrest men caught with firearms and fine them to the full extent of the law. Drive all thugs from the city. There has been enough of murder and bloodshed as a result of this strike.

Ex-Governor Odell of New York, met with defeat in his attempt to retain control of the New York county committee after a long fight in that body. His defeat will no doubt hurt him in the state generally and greatly hamper him in his fight for the control of the legislature. Although he has earned a richly deserved unpopularity by his boss methods, yet singularly enough he may gain some sympathy because of the fact that President Roosevelt and Governor Higgins have shown a disposition to follow in his own arbitrary footsteps in order to drive him from power. Just at present the people are strongly inclined to resent the exertion of boss power, and it matters little to them in what quarter it is exhibited.

CHRISTMAS TRAGEDIES

Bloodshed Attends Noisy Celebrations at Many Points.

TWO NEGROES MOB VICTIMS

One Barricades Himself in a Tower and for a Time Stands Off a Crowd of Citizens—Accidental Killings Also Mark the Observance of the Great Festival Day.

Louisville, Ky., Dec. 26.—In a desperate encounter near Paducah, Ky., between a policeman and John Tice, a one-legged negro flagman for the Illinois Central, who had barricaded himself in a tower, Patrolman James Clark was shot twice in the hip and Tice was riddled by scores of people with rifles and pistols from the surrounding streets and roofs. The negro became enraged at some one throwing bricks at his tower and began firing from the tower at people on the street below. When the police attempted to arrest him he fired on them until he was killed.

Three fatalities and a number of minor accidents resulted from Louisville's celebration of Christmas. Theresa Housman, an eight-year-old girl, was killed by George Doll, 12. The girl's death resulted from an unexpected presence of a ball cartridge among a number of blanks which the Doll boy, a neighbor, was firing in a rifle. George Irving Harper, 14, met death in an unusual manner. While Harper was tamping a charge in a small cannon with a broomstick another boy exploded a firecracker over the touchhole, setting off the cannon. The broomstick was driven through Harper's neck, killing him instantly. Ella Barrett, a negro girl, was killed by a stray shot from the revolver of a negro.

Defended His Mother.

Philadelphia, Dec. 26.—Defending his mother against her quarrelsome husband, Joseph Pollock, 28, struck his father in the face, which resulted in his death. William Pollock, the husband, who had been drinking, was called to dinner by his wife. He became angry because his sleep had been disturbed and was in the act of striking his wife, when the son stopped the blow. The interference enraged the husband, who struck the son, and the latter retaliated by hitting his father. The elder Pollock fell backward and sustained a fractured skull by his head striking the kitchen stove. He died on the way to the hospital.

Attorney Shot.

Memphis, Tenn., Dec. 26.—As the result of the promiscuous firing of their revolvers by a party of negroes noisily celebrating Christmas, Frank Poston, one of the most prominent attorneys of this city, was shot and fatally wounded. Mr. Poston was standing on the sidewalk in the vicinity of his home when the party of negroes appeared, and was struck by a bullet from the revolver of one of the party. He died from the effects of his wound.

Negro Lynched.

Tampa, Fla., Dec. 26.—A Negro man, while on a Christmas drunk at St. Petersburg, fatally cut Captain J. J. Mitchell, a special police officer, who died in a few minutes from the injuries. The negro was placed in jail, but in 30 minutes a mob congregated and one of the crowd shot through the window of the jail, killing the negro.

INTO STREETCAR

Backs a Freight Train, a Number of Persons Being Crushed.

East St. Louis, Ill., Dec. 26.—One man was killed and three injured in an accident in the railroad yards caused by a freight train backing into a streetcar. The dead: John Daugherty, St. Louis. The injured: H. C. Peema, Virginia City, Nev., ankle sprained and bruised; F. E. Hathaway, East St. Louis, bruised and lacerated; George Walters, East St. Louis, cuts and bruises. The streetcar was badly damaged. The streetcar crew declare that there were no lights on the rear of the freight and that they had no warning of its approach.

Awarded a Medal.

Grand Island, Neb., Dec. 26.—Geo. Poell, county clerk-elect of this county, received a letter from President Roosevelt conveying to him the information that the first medal of honor given under the act of congress approved Feb. 19, 1905, had been awarded to him for conspicuous bravery in saving the life of a child at the risk of his own, and expressing warm commendation for the deed. Mr. Poell, who was a locomotive fireman, ran alongside his engine to the pilot and snatched a little child from the track, saving it from harm, but he himself fell under the engine, losing a leg and being otherwise badly injured.

Cardinal Attacked.

Rome, Dec. 26.—The pope expressed his deep concern over the attempt made at Barcelona to stab Cardinal Salvador Casanovas y Pares, bishop of Urgel, as he was leaving the cathedral in length with Cardinal Merry Del Val, papal secretary of state, and with Cardinal Vives y Tuto, bishop of Barcelona, who is here. Later he sent a message to the cardinal congratulating him on his escape.

PRIMARY ELECTIONS

Will be Subject for Legislation by the New General Assembly to Meet the Demands for Reform—Preparations for New Governor's Inauguration.

Columbus, Dec. 26.—One of the most important subjects which constructive Democratic statesmanship will have in view during the coming session of the general assembly will be the enactment of a new primary election law. It is well known that the present law is a farce which places a premium on political corruption and makes hypocrisy and treachery at the polls "as easy as rolling off a log." For years the foremost leaders of the Ohio Democracy have advocated a reform of the present primary election system. They have introduced legislation of this character in many legislatures; they have pleaded with Republican senators and representatives to give the people some relief; they have forced Republicans to admit that the Democratic idea regarding primary elections was the only right one—but all in vain. At the critical moment the Republican bosses have always turned their puppets in the legislature to turn deaf ears to these representations.

As recently as during the session of the 76th General Assembly the Democratic leaders introduced a bill to purify primary elections. It was a bill that would have made bossism in this state impossible if it had been enacted and would have made "government by the people" a fact instead of a fancy. The Republican leaders in both branches of the legislature acknowledged that the principle of the bill was right and its working details practical. Arguments in its favor were made before committees and otherwise by influential Republicans and Democrats alike, and for a time it looked as if the measure would become law. Then came the still, small voice of one Cox—and the bill was killed.

Today it seems well established that the meeting of the late election is sufficiently clear to the members of the 77th General Assembly, Republicans as well as Democrats, to insure a radical reform of the present primary election law under the administration of Governor John M. Pattison. The Republican bosses are still opposed to it, but, fortunately for the people, they are not conspicuously in the saddle just now. The Democrats of both house and senate will be a unit for reform, and enough Republicans will be found acting with them to accomplish the desired result. It is proposed to provide that the primaries of all parties shall be held on the same day and during the same hours. This would make it impossible for Republicans to "work" Democratic primaries, and vice versa, as is so frequently done now. It is also proposed to hold the primaries on registration days, thus insuring a large attendance of the voters of all parties. These simple reforms would revolutionize the present vicious system and make representative government in Ohio a reality for the first time. It is not too much to assert that the time has now come, under Democratic auspices, when the people will get what they have so long in vain demanded in this regard.

There is gratifying evidence that the \$10,000 purse that has been raised by the Columbus Board of Trade to celebrate the inauguration of Governor Pattison will be spent along legitimate lines and in a manner to make the event long memorable for all of the many thousands who will be in Columbus on inauguration day. Half fare will prevail on all railroads from all points within the state. Fully 6,000 soldiers of O. N. G. and independent companies will be in the inaugural parade and arrangements have been made to feed them with a monster dinner at the expense of the board. The inaugural ball, which will dedicate the imposing new Franklin County Memorial building, will be the most elaborate "social function" of the kind ever witnessed outside of Washington. Every hour of the day will be occupied by some brilliant or impressive ceremony, and a happy climax will be given to these various performances at the "smoker" to be given by the newspaper men in the evening, in honor of Governor Pattison, Governor Herrick and other distinguished guests, at the Hotel Hartman. Columbus will wear her best bib and tucker on the eighth of January and her festivities will be worth coming miles to witness.

Some Republican organs are now trying to sow discord in the Democratic ranks by alleging that the Democratic members of the legislature are to be dominated by a boss. The name of Mayor Johnson of Cleveland is most frequently mentioned in this connection. Undoubtedly the wish is father to the thought among those who entertain both for the Republicans an expensive luxury, and they would be quite willing to see the Democracy afflicted with one. They may possess their souls in peace, however, for the individual is not born who will lord it over the Democrats of the 77th General Assembly.

Mayor Johnson's influence will be as strong as that of any other Democrat equally prominent, and no stronger. He will neither be a boss in fact nor try to pose as one in theory. The Democrats of the coming legislature will be governed by the consensus of Democratic opinion. They will consult together and entertain outside counsel only when it is disinterested—and the Republicans will be disappointed in the hope of raising the boss issue for their next campaign. It would be grotesque, indeed, if they could do so.

The Democratic senate caucus will be held December 30, and on that occasion many important matters, relating to the entire session, will be settled. It is probable that this will be preceded by conferences of the senators-elect convening perhaps several days prior to the caucus. At any rate, the advance guard of statesmen this year will be the largest in the history of the state.

WOMEN TO VOTE ON LOCAL OPTION

IF BILL TO BE INTRODUCED IN LEGISLATURE BECOMES A LAW THIS WINTER.

Measure Has Support of Ohio Anti-Saloon League—Legislature to Meet Next Monday.

Columbus, O., Dec. 26.—The legislature which convenes next Monday is to be asked to grant women the right to vote in local option elections. Viola D. Romans of Cambridge, superintendent of the legislative department of the W. C. T. U. announces that such a bill has been prepared and will be championed on the floor of the general assembly by law makers friendly to temperance. A monster petition asking for the passage of the bill and resolutions are being solicited from all temperance organizations. The Ohio Anti-Saloon League has given the effort its official endorsement.

TO THE PEOPLE OF NEWARK, OHIO

I endeavored in a former statement to make it clear that The Newark (O.) Water Company was willing to sell its plant to the city through an appraisal as per the terms of the original contract, which is the only way provided to dispose of the property to the city. My proposition was specific, that if such appraisal was made and a price was agreed upon by the proceeding, the city should not be compelled to take the plant at such price.

I renew the proposition now, furthermore, if the city will undertake the appraisal and NO agreement be reached the Water Company will agree:

1. That the hydrant rental contract will be extended at the option of the city as long as is necessary to complete a municipal plant.

2. The city will be secured against any liability, either to take the property or to pay any costs, attorney fees or expenses on account of any litigation arising out of the appraisal or sale.

The Water Company claims and maintains that the city by making the purchase, can secure a complete plant in every respect, with adequate fire protection in every part of the city, at a saving of approximately \$200,000 in the cost of construction and eliminate competition, also that the city will avoid the tearing up of many miles of paved streets, and the danger of sickness, and possible, epidemic of disease liable to follow the digging up of large areas of old streets and will receive the income from the 2500 patrons of The Newark (O.) Water Company.

But the Water Company takes this opportunity to state that if the city officials reject this proposition, and refuse to purchase the property, the Water Company will continue to furnish filtered water to its customers, at a price that will retain their patronage.

Very respectfully submitted,
NEWARK (O.) WATER CO.

GETS \$12 A YEAR
From Fortune Worth \$80,000—Estate in Court—Here is Peddling Apples.
Bridgeport, Conn., Dec. 26.—John Nichols, a farmer, came to town to peddle apples, and when his cart was empty he dropped into the superior court on the matter of business.
The peddler is gray haired and bent. He said that he is heir to a fortune estimated at \$80,000 in cash, and has a share in real estate in New York valued at \$500,000.
"All I get out of this is \$12 a year for spending money. My folks think that is enough for any man of my station," he said. "Of course, the farm keeps me in pork and beef and vegetables, but I want to come to town once in awhile and spend money, and a dollar a month isn't enough. So I have to peddle apples to make both ends meet."
Nichols lives in the family homestead in Greenfield Hills. The family is an old one that immigrated here 209 years ago and built up a fortune. The estate, valued at nearly \$75,000, has been tied up by litigation, so that a division has been impossible for many years. The old man said that his sister, Susan, has charge of the property, and he has begun suit against her for an accounting. He never disposed of his interest in the estate, he says.
The Nichols estate owns several parcels of real estate in New York City, among them two stores in Maiden lane. There is also a valuable plot of property in West 74th street. The old man is a familiar character about the city, appearing here once a week and peddling from house to house.
Huge Task.
It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion, and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. EXAMINATION OF NEWARK MINE

EXPERT'S OPINION OF WHAT HE
FOUND IN THE LOCAL GOLD
FIELD.

Reasons Why Mr. Austin Believes
That Licking Company Has
Good Proposition.

The Advocate has just received from Mine Expert Wylie Austin of Newfain, O., the following report on his investigation of the Licking Mining company's gold mine south of Newark. In this report Mr. Austin tells of what he found and why he believes the property is worth development. The report follows:

Newfain, O., Dec. 26.—This is to certify that at the request of James D. Corwine, president of the Licking Mining company, and others, that I made an examination of the property which this company holds near Newark and are working for gold and intend to develop for what other industries may be possible on the account of the minerals thereon. In consequence of this examination I feel free to state that in my opinion the free gold found in the sands and gravel on their territory if properly managed will result in handsome profits to the stockholders.

Their property, the portion which I examined, consists of about one hundred acres as near as I could tell without actual measurement. This one hundred acres is literally covered with a glacial deposit from one to 15 feet deep, all of which carried free gold from large to very fine gold. In my examination of two days, I washed out several pans of sand and gravel, taken from most unlikely places, and in all except one pan I found colors visible to the natural eye, and in the one not visible to the eye I found under a strong lens fine gold. I also discovered that the bed rock of this gold deposit is the uppermost portion of the Cuyahoga shale, a very fine light blue clay.

The gold deposit extending up on the hill sides to the Logan group of conglomerates is composed of fine and coarse pebbles of quartz. Now this clay, which is the bed rock of the deposit, holds the large gold, it being very tenacious once the gold strikes it; it settles in the tough clay and there it remains to this day, and by the way, this clay itself is very profitable to work; it is a very fine pottery clay, can be utilized for many purposes at a profit.

I have examined many glacial deposits but this particular one carries far the most gold bearing gravel and sands, covering the largest territory I ever saw in this state, and it being on the extreme margin line of the ice glades, where they melted down from the heat of the southern sun, it would naturally follow that there would be the heaviest deposit of gold, if it carried any, and this particular ice glade was surely loaded with the precious metal.

I also discovered a fissure vein, the strike of which runs directly through this placer deposit. I had three tests made of samples taken from this fissure vein for gold and silver. The samples had to be taken from an exposure in a cliff and the ore was very much bleached and of course could not expect much of a yield, but here they are:

Certificate of assay from A. K. Langridge & Co., of Boulder, Colorado: Gold .08 of an oz. Silver 1-2 ounces; total value of gold and silver, \$3.22 per ton.

Also one certificate of assay from O. B. Mackworth, state chemist of Ohio: Gold trace, silver 1-2 ounces.

Also certificate of assay from E. E. Burlingame & Co., Denver, Colorado: Gold, trace.

Now those chemists above named are above suspicion. Of course those certificates of assay do not show much yet they are good results considering the decomposed ore taken from the fissure at the extreme surface.

Now this fissure vein supplies the reason why O. S. Mackworth, state chemist of Ohio, found in a certain sample taken from an excavation for well on this property, and analyzed by him gave silver \$3200.00 value per ton.

I find by tracing and surveying that this fissure vein runs very close to this excavation where the fine silver ore was taken from, and the evidence is clear that the silver had to come from this fissure, therefore taking all into consideration the prospect is good for a rich fissure vein bearing gold and silver.

This with the placer prospect makes it a good investment for capitalists.

Very respectfully yours,

WYLIE AUSTIN.

BIG OIL STRIKE MADE AT BUTLER

EXCITEMENT CAUSED AND RUSH
TO NEW FUEL IS
NOW ON.

Report Reaches Newark That the
Flow is From 300 to 400
Barrels Daily.

The Advocate last Saturday briefly told of an oil strike near Butler, O. Butler is a little town north of Newark between Mt. Vernon and Mansfield and just now it is the scene of a stampede of oil men of all kinds and descriptions.

"It is all because we struck the greatest well I have ever seen in my 20 years' experience," said Mr. W. C. Stretton, a well driller of Lancaster, Ohio.

"The well was shot on Thursday evening and is running over 250 barrels a day, of the finest crude oil ever known. It is as clear as many of the refined oils just as it comes out of the ground," and here he displayed a bottle of the stuff which proved good enough to burn a lamp without re-fining, almost the entire quantity being consumed. The oil was struck at a depth of 2600 feet. While Mr. Stretton gives the flow at 250 barrels daily a report reached the Advocate Saturday night from an authoritative source giving the output 300 to 400 barrels daily.

The oil tested "50 gravity" and as a consequence there was a rush of oil men to Butler on Friday and Saturday. The company, known as the Butler Oil and Gas company, has 5000 acres of land leased in the vicinity and stock went up from \$25 a share to \$200 a share. The Logan Natural Gas and Fuel company and the Ohio Fuel and Supply company sent representatives to the field at once and after examining the well, the output and quality, they tried at once to get possession of the leases. As a consequence Butler is experiencing a boom and promises to take a sudden jump in the building line within a short time.

While in Columbus Saturday evening, Mr. Stretton, who struck the well, purchased oil tanks, etc., which were placed on the grounds on Sunday and Monday. With Mr. Stretton are interested Judge Levering and Judge J. B. Waite of Mt. Vernon. Judge Waite is well known in Newark, having been on the common pleas bench in this city.

PRESIDENT HUNT

Occupies Pulpit at Granville in the
Absence of the Rev. C. J.
Baldwin.

Granville, Dec. 26.—Sunday morning the pulpit of the Baptist church was very capably filled by Dr. Emory W. Hunt, president of Denison University, Dr. Baldwin having been granted a short leave of absence. Dr. Hunt chose his text from Luke 2: 10, "And the angel said unto them, fear not, for I bring you good tidings of great joy which shall be to all people." From this verse and those which followed Dr. Hunt drew many thoughts, which, as developed by him, were exceedingly helpful, and which reached the hearts of all who listened. It was appropriately said by Dr. Hunt that we should feel great joy in being able, as those who have heard God's great message, to transmit it to others. We should not be selfish in our happiness, but should share it with all for whom it was intended, and we know that God's message is to every one, from the highest king to the humblest soul, from the humblest to the most wretched and helpless. God's love is extended to all the world, and it should be our noble purpose to tell others of His love; we should take upon ourselves the personal duty of bearing the glad tidings to others. Every heart may be happy at Christmas tide. Whether he needs the gift or not, which are given to him at this time, his heart is joyful when he knows that his friends think of him. There is a degree of happiness even in this thought. But the truest joy comes from the deepest feeling, and the deepest feeling of gratitude comes from the deepest, most heartfelt. And so how happy are those whose needs are not all supplied, whose hearts have room to store away another bit of joy. On Christmas day we should not be selfishness, the thought of our own happiness, crowd out the thought of others. And most of all, in order to possess the real Christmas spirit we must remember Christ's spirit of un-

selfish love, the joy He has given us, and we should think very much on His birthday of what we owe to Him."

During the morning service Miss Elsie Hirschberg of Newark sang a very beautiful solo, which was an expression of deep feeling, and was sung effectively and earnestly.

FINE PRESENTS

Given by Street Car Men to General Manager, Superintendents Boutelle and Frazee.

All the employees of the city electric road and the three interurban roads that enter this city, including the shop hands and office force, presented General Manager J. R. Harrigan with a splendid gold watch on Christmas day as a token of their friendship and esteem for his uniform courtesy and kindness to them. Mr. Harrigan was greatly surprised, and it is unnecessary to say that the gift was greatly appreciated.

The men of the transportation department also presented Mr. F. A. Boutelle, superintendent of transportation, with a solid gold fob. Both articles were furnished by the well known jewelers, the Haynes Brothers.

The shop employees of the inter-

ban roads, also presented Mr. Frazee, superintendent of motive power, with a fine office chair.

General Manager J. R. Harrigan, according to his usual custom, gave each employee of the system a basket containing a chicken, oysters, celery, cranberries and everything that goes to make up a first class Christmas dinner.

HAD BAD FALL

Rev. Mr. Schleifer Painfully Hurt
While Stepping From Carriage
on Sunday.

Rev. M. Schleifer of the German Lutheran church, met with an unpleasant accident Sunday as he was returning from Cedar Hill cemetery, after the funeral services over the remains of the late John Moser.

Mr. Schleifer was hastening to catch a west bound car, and in alighting from his carriage, in some manner caught his foot so that he fell with great force to the ground, striking his shoulders and head. He was momentarily rendered unconscious, the fall being a very severe one. Although suffering considerable pain from his numerous bruises, Rev. Mr. Schleifer was able to conduct the Christmas services at his church. He is resting comfortably today.

TRUANT OFFICER DAVID J. JONES

MAN WHO IS BELOVED FOR HIS
GREAT KINDNESS TO NEW-
ARK'S POOR.

For Years Through Assistance of the
School Children He Has Done
Much Good.

Altruism, politeness, diligence—
these three excellent qualities are most
fitly combined in the person of New-
ark's truant officer, D. J. Jones.

No individual, or society has done
so much for the poor and needy of
the city as has this one man. Mr.
Jones' work during the ten years in
which he has held the position of tru-
ant officer, has merited and received
the undivided praise of all who have
an opportunity of knowing what he
is undertaking. Few persons in this
city realize the conditions existing in
some of the more remote neighbor-
hoods, few realize the number of peo-
ple in actual want within the city

TRUANT OFFICER D. J. JONES.

limits. It will be safe to venture that
Mr. Jones knows personally, every
poor family in the city.

A bit of the life history of this dis-
tinctly characterized man, will indeed
be pleasing, as all through his char-
acter history runs that same fine
thread of altruism and determination.

Mr. Jones was born in 1829 at New-
ton Falls, N. Y. At the age of nine
months he was removed to Licking
county, Ohio, with his parents, having
lived in Newark for all but one of the
68 years of his life. He began at an
early age to work at the shoemaker's
trade. He worked at this occupation
until the opening of the civil war in
1861, when he enlisted in the first
company raised in this county, Co. H,
Third Ohio, under Capt. McDougal. He
was enlisted as a high private in the
first rank, for a three months' term of
service, but was retained for six
months. In 1862, he was commissioned
as second lieutenant, and recruited 38
men for the 95th Ohio, but later was
transferred with his men to the 45th
Ohio, receiving a promotion to first
lieutenant. In March, 1863, at the bat-
tle of Dutton Hill, Ky., he was shot
through the left breast, fracturing two
ribs. Owing to the fact that no anes-
thetic was administered, Mr. Jones
bore the pain of cleansing the wound.
This was done by passing a silk rib-
bon through the opening. The suffering
of this operation was borne bravely
by Mr. Jones, after which he lay in a
hospital there for six months. He
was sent home where he remained for
three months when he returned to a
convalescent hospital at Camp Nelson,
Ky. In the spring, he tendered his
resignation and returned to Newark,
resuming his work at the cobbler's
bench.

In 1881 he became a member of the
Newark police force, holding this po-
sition two years. He was also a pri-
vate detective in employ of the B. and
O. here for some time. Again he re-
sumed his trade until 1895, when he
was appointed truant officer. The po-
sition which he still holds so faith-
fully.

In appearance Mr. Jones is dignified
and commanding, truly resembling the
strict type of Southern gentleman. He
stands 6 feet and one-half inch in his
stocking feet, is broad shouldered
and very erect. His face is tender and
sympathetic, yet commanding. The
work of Truant Officer Jones is entire-
ly voluntary, he has no assistance in
his efforts, and does all outside of his
regular duties. His report to the
board of education after last Thanks-
giving day is self-explanatory. In it
he says that he delivered, personally,
to the needy of the city 625 bundles of
clothing and shoes, 600 baskets of
fruit and vegetables, besides 150 jars
of fruit and baskets of vegetables to
the Day Nursery. These offerings
were furnished by the school children
of the city, but Mr. Jones, unassisted,
and without any recompense except
that afforded him by seeing their
happy faces, delivered these bundles,
working hard the greater part of the
holiday while others were resting.
The same day Saturday, this good man
is busy all day long, working, and liv-
ing for others.

When asked to describe some in-
stance typical of his daily travels, Mr.
Jones said:

"There was a family in the city not
long ago, that I remember of. The
family was in great distress, and the

mother was sick and helpless. I took
them several bundles of clothes and
fruit and the mother called me to the
door of the room in which she lay
sick. I told her that Prof. Simkins
had called for a thank offering from
the public schools and that I was mere-
ly distributing the things. The sick
mother, with a look of gratitude, said
to me, 'God bless Professor Simkins
and the public schools,' and as Mr.
Jones in his sympathetic manner told
this sad story of how this home was
brightened, and how he took no credit
for the act, great tears welled up in
his eyes. When praised for his kind-
ness, Mr. Jones said, 'Well, I've al-
ways been taught, and found it so, that
it's more blessed to give than to re-
ceive, but I want you to give the pub-
lic schools the credit for this.'"

The truant officer has a cozy home
at 94 Granville street, where he has
lived for 40 years.

He is, unlike most truant officers,
loved by the children, and when they
meet him on the street their greeting
is ample proof of their respect for
this gentle, earnest gentleman.

G. W. J. WOLTZ GOES TO PRISON

FORMER NEWARK REAL ESTATE
DEALER GIVEN YEAR'S
SENTENCE.

Prisoner is 78 Years Old and He May
Not Survive His Term of
Imprisonment.

Marion, Dec. 26.—G. W. J. Woltz,
78 years old, a former Newark man,
pledged guilty to selling land to
which he did not possess title, and
was sentenced to one year in the pen-
itentiary. He is so feeble he is not
expected to survive his sentence.

While in Newark several years ago
Mr. Woltz was in the real estate busi-
ness, being associated with the realty
firm of Miller & Struble on the east
side of the public square.

Woltz has been imprisoned in the
Marion county jail during the past
year on the charge of having defrauded
Marion people in the sale of Ten-
nessee real estate.

Woltz was arraigned and pleaded
not guilty shortly after his arrest.
Since then he has been imprisoned at
the county jail awaiting trial. As a
result of his long imprisonment he
has become weak and pallid and owing
to his advanced years it is
thought that he will not live to finish
his sentence.

The query of Judge Young as to
whether the aged prisoner desired to
make any statement before sentence
was passed upon him was answered
by a weary shake of the head.

Woltz was to have been given his
trial January 3, but he finally decided
to plead guilty.

CHRISTMAS TRADE

Better in Newark This Year Than
Ever Before in City's History.
Merchants Happy.

Saturday marked the close of the
purchasing period of the Christmas
season, and from a purely financial
standpoint all the merchants of New-
ark have had a most successful sea-
son. It was not marked by any severe
weather changes and for this reason
the purchasing was done more moder-
ately each day than would have been
the case had there been a few days
of extremely cold weather. All mer-
chants made heavy purchases and each
has been well treated by the public.

BILL INTRODUCED FOR NEW DISTRICT

CONTEMPLATED FORMATION OF
THIRD FEDERAL JUDICIAL
DISTRICT OF OHIO.

Thirty Counties Including Licking—
John J. Adams May be Appoint-
ed Judge.

A bill providing for the establish-
ment of a third federal judicial dis-
trict in this state was introduced in
congress Thursday. Newark people
are interested in the fate of this bill,
not only because Licking county is
included in the proposed district, but
from the fact that Judge John J.
Adams, former circuit judge, is promi-
nently mentioned for the proposed
judgeship.

Congressman E. L. Taylor of Col-
umbus, introduced the bill. The pro-
posed district includes the following
counties: Logan, Union, Franklin,
Madison, Fayette, Ross, Pickaway,
Delaware, Morrow, Knox, Licking,
Fairfield, Hocking, Perry, Muskingum,
Coshocton, Guernsey, Noble, Morgan,
Washington, Monroe, Belmont, Harri-
son, Jefferson, Pike, Vinton, Jackson,
Gallia, Athens and Meigs.

The great increase in the business
transacted in the United States courts
makes the new district or at least an
additional judge necessary.

A difference of opinion exists among
the leading attorneys of the state but
it is believed that the great majority
are in favor of the bill introduced by
Congressman Taylor.

It is thought that even if the bill
should fail of passage it will at least
result in the appointment of an addi-
tional judge.

The body was taken to J. A. McGon-
agle's morgue where it was cared for.
The neck and both arms were broken
and both legs were severed below the
knees.

Nothing was in possession of the
man by which he could be identified.
He wore a blue serge coat and vest,
gray striped trousers and a striped
shirt. The man appeared to be an
Italian, was about five feet, eight
inches in height and possibly 50 years
of age. The body will be held for
identification.

Switzerland is the paradise of wo-
men students at universities, so far
as Europe is concerned. There are
at present about 5,000 of them, mak-
ing 22.7 per cent of the total number
of students.

The latest alleged prevention of
sickness is to inhale deeply when
the ship rises and exhale when it
sinks.

The Trial Balance

Some people think we are
just rolling in wealth. We
are making money but not so

fast as some imagine. We spend a good deal more money for soap and starch
and all sorts of things than other laundries do. We buy higher grades of all
these things. That's why. It costs lots of money to run a laundry right,
and ours is run right.
